
Contents – Turinys

Molecular Biology Molekulinė biologija

- Kulys J., Vidžiūnaitė R.* Modulation of laccases activity by soluble polymers 3
Santrauka 6
- Labeikytė D., Bagdonienė L., Sasnauskienė S., Sabaliauskienė V., Juodka B.* Covalent DNA–protein complexes in murine cells 7
Santrauka 12

Microbiology Mikrobiologija

- Jankauskienė R.* Defence mechanisms in fish: frequency of the genus *Lactobacillus* bacteria in the intestinal tract microflora of carps 13
Santrauka 17
- Kriučichina N., Kušienė N., Čitavičius D.* Differences in the utilization of the glutamate family of amino acids by thermophilic proteolytic bacteria 18
Santrauka 55
- Varnaitė R.* Enzymatic lignin degradation by micro-mycetes in plant remnants 23
Santrauka 25

Biochemistry Biochemija

- Marcinkevičienė L., Bachmatova I., Meškys R.* Investigation of biosynthesis of intracellular and extracellular pyrroloquinoline quinone by the *Erwinia* sp. 34-1 and *Gluconobacter* sp. 33 26
Santrauka 31

Biophysics

- Daugirdienė A., Vaitkevičius H.* Colour perception: contrast and adaptation 32
Santrauka 36

Biotechnology Biotechnologija

- Bumelis V. A., Bumelienė Ž., Gedminienė G., Smirnovas V., Sereikaitė J., Medelytė I.* Investigation of ther-

- mal stability of recombinant human interferon-gamma 37
Santrauka 41

Virology Virusologija

- Zitkaitė I.* Viruses of cucumber plants and identification of their agents 42
Santrauka 46

Immunology Imunologija

- Dringelienė A., Markevičius A., Žukienė V., Ačaitė J.* Immunity changes in healthy and coronavirus-infected bovine organisms from ecologically different districts 47
Santrauka 51
- Kutorga E.* Discomycetes from the surroundings of Puvočiai 53
Santrauka 55

Proceedings of the 3rd Genetical Congress of Baltic Countries (Estonia, Latvia, Lithuania) Vilnius, 10–12 October 2002

- Barysas D., Čėsniienė T., Balčiūnienė L., Vaitkūnienė V., Rančelis V.* Genotoxicity of Co²⁺ in plants and other organisms 58
Santrauka 63
- Navakauskienė R., Treigytė G., Pivorūnas A., Savickienė J.* Cell cycle inhibitors in retinoic acid- and etoposide-mediated biological responses 64
Santrauka 67
- Savickienė J., Pivorūnas A., Treigytė G., Navakauskienė R.* Activity modulation of the nuclear factor κB by post-translational modifications in association with granulocytic differentiation of HL-60 cells 68
Santrauka 71
- Servienė E., Lebionka A., Melhydas V.* Influence of carbon source on the expression of the *S. cerevisiae* K2 killer preprotoxin gene 72
Santrauka 75
