<i>Zajančkauskaitė, A., Kolesinskiė, G., Piešiniė, L., Truncaitė, L., Driukas, A., Nivinskas, R.</i> Identification of new middle promoters upstream genes <i>nrnC</i> and <i>tk.3</i> of bacteriophage T4 .....	3	<i>Benušienė E., Kučinskas V.</i> Screening for mutations in patients with osteogenesis imperfecta and estimation of clinical manifestation .....	25
Santrauka .....	6	Santrauka .....	28
<i>Lebionka A., Servienė E., Melvydas V.</i> Isolation and purification of yeast <i>Saccharomyces cerevisiae</i> K2 killer toxin .....	7	<i>Danusevičius J., Danusevičius D.</i> Benefits of genetic testing for introduction of Douglas fir to Lithuania .....	29
Santrauka .....	9	Santrauka .....	33
<i>Driukas A., Nivinskas R.</i> Regulation of the expression of bacteriophage T4 gene <i>30.9</i> .....	10	<i>Just W., Sinkus A., Baumstark A., Andriuškevičiūtė I., Jurkėnienė L.</i> Börjeson–Forssman–Lehmann syndrome: defining the distal border of the candidate gene interval in Xq26 .....	34
Santrauka .....	13	Santrauka .....	38
<i>Morkūnas V.</i> Investigation of the genetic toxicology of dill essential oil and benzo(a)pyrene in mouse bone marrow by micronucleus test .....	14	<i>Baublys V., Paulauskas A., Sruoga A.</i> Genetic variability of the subfamily <i>Anserinae</i> defined by RAPD analysis .....	39
Santrauka .....	16	Santrauka .....	41
<i>Juškevičiūtė E., Skiriutė D., Paulauskas A., Areškevičiūtė J.</i> Genetic variations in the genus <i>Apodemus</i> ( <i>Rodentia: Muridae</i> ) in Lithuania .....	17	<i>Chmeliauskaitė V., Žvirblis G.</i> Cloning and expression of <i>Xenopus laevis</i> chaperones Hsp30C and Hsp70 in <i>Escherichia coli</i> .....	42
Santrauka .....	20	Santrauka .....	44
<i>Sruoga A., Volkovaitė V., Butkauskas D., Raudonikis L., Sorokaitė J., Tubelytė V.</i> Genetic differentiation of common tern ( <i>Sterna hirundo</i> ) colonies .....	21	<i>Khotyljova L. V., Kaminskaya L. N., Koren L. V.</i> Influence of genetic systems of <i>VRN-</i> and <i>PPD</i> genes on the ecological adaptation of wheat and <i>Triticale</i> .....	45
Santrauka .....	24
