## Molecular Biology

### Molekulinė biologija

- Piešiniene L., Truncaitė L., Zajančauskaitė A., Nivinskas R.* Primary structure and activity of endoribonuclease RegB encoded by bacteriophage TuIa ... 3  
Santrauka ..... 6
- Ger M., Tunaitis V., Valius M.* Elucidation of the complex formation between Nck-a, RasGTPase activating protein and platelet-derived growth factor receptor-b ..... 7  
Santrauka ..... 9
- Savickienė J., Pivorūnas A., Treigytė G., Navakauskienė R.* AP-1 binding activity is modulated by post-translational modifications during granulocytic differentiation of HL-60 cells ..... 10  
Santrauka ..... 12

## Genetics

### Genetika

- Driukas A., Nivinskas R.* Studies on the expression of genes *rIII* and *30.9* of bacteriophage T4 *in vivo*.. 13  
Santrauka ..... 15

## Biochemistry

### Biochemija

- Sadauskaitė A., Pimpė E., Kadziauskas J., Kirvelienė V., Juodka B.* Cytochrome c translocation in m-THPC photosensitised murine hepatoma MH22 cells *in vitro* ..... 16  
Santrauka ..... 18
- Banienė R., Viskontaitė Ž., Mildažienė V.* Depletion of NADH determines the inhibition of the respiratory chain in heart mitochondria by calcium overload ..... 19  
Santrauka ..... 21
- Trumbeckaitė S., Majienė D., Toleikis A.* Sensitivity of cytochrome c test in intactness assessment of the outer mitochondrial membrane: dependence on the respiratory substrate and metabolic state of the mitochondria ..... 22  
Santrauka ..... 24
- Toleikis A., Trumbeckaitė S., Majienė D., Dagys A.* Influence of fatty acid oxidation on the outer mitochondrial membrane permeability for ADP: dependence on the concentration of fatty acids and oncotic pressure ..... 25  
Santrauka ..... 27
- Chaustova L.* The role of ATP as a regulator of effective plasmid transformation in *Saccharomyces cerevisiae* ..... 28  
Santrauka ..... 31
- Kažemėkaitė M., Udrėnaitė E., Labanauskas L., Talaiškytė Z.* On the anti-inflammatory activity of some novel N,N-disubstituted triazene derivatives ..... 31  
Santrauka ..... 35

- Treigytė G., Savickienė J., Navakauskienė R.* Changes in O- and N-glycosylation of cytosolic proteins in proliferating HL-60 cells and in those induced to granulocytic differentiation ..... 36  
Santrauka ..... 38
- Vidziunaite R., Kriauciunas K., Kulys J.* Kinetics of fungal catalases inhibition with hydroxylamine ..... 39  
Santrauka ..... 41

## Microbiology

### Mikrobiologija

- Zimkus A., Chaustova L.* The permeability of *Saccharomyces cerevisiae* yeast strains with different cell wall architecture to lipophilic cation tetraphenylphosphonium and their transformation capability ..... 42  
Santrauka ..... 44

## Immunology

### Imunologija

- Urbonavičiūtė V., Krivickienė Z., Tamošiūnas V.* Proliferation and cyclin D3 protein levels are influenced by PKC inhibition with Ro318220 in Jurkat T lymphocytes ..... 45  
Santrauka ..... 48

## Plant Physiology

### Augalų fiziologija

- Anisimovienė N., Mockevičiūtė R., Jodinskienė M., Akecionienė V.* Characterization of IAA-ABPs complexes in different compartments of dicotyledonous plant cells ..... 49  
Santrauka ..... 52

## Cell Biology

### Lastelės biologija

- Kirvelienė V., Marozienė A., Čėnas N., Tirzite D., Tirzitis G., Juodka B.* Effects of 1,4-dihydropyridine derivatives on photosensitised cell damage ..... 53  
Santrauka ..... 55
- Bukelskienė V., Baltriukienė D., Stulpinas A., Kalvelytė A. V.* Study of apoptosis and c-Jun expression in mouse cancer model systems ..... 56  
Santrauka ..... 59
- Šveikauskas V., Bareikienė N.* Energy-dependent auxin transport through the plasmalemma: the role of H<sup>+</sup>-ATPase ..... 60  
Santrauka ..... 62
- Navakauskienė R., Treigytė G., Kulytė A., Savickienė J., Magnusson K.-E.* Proteomic analysis by MALDI-TOF mass spectrometry and its application to HL-60 cells ..... 63  
Santrauka ..... 65
